## Tutorial Proposal Form

**A Tutorial Title**

*Please insert the title of your tutorial here*

**B Instructor**

Last Name:  
First Name:  
Position:  
Affiliation:  
Address:  
Email:  
Phone:  
Fax:  
Homepage:

**C Abstract with Objective and Motivation**

A concise description of the content and goals of the tutorial  
Is this a survey of several topics, or an in-depth study of one?  
Why do you consider your tutorial topic to be important?  
What will the participants learn?

**D Outline**

Please give an overview of the planned content and include rough time allocations.

**E Intended Audience**

Who do you think could be interested in / benefit from attending your tutorial?  
Is any prerequisite knowledge expected of audience?

**F Biographical Sketch**

Short CV, including some information on prior teaching and research experience (classes, courses, projects, etc)

**G Prior History**

If the instructor has given a tutorial previously, explain when and where, and estimate attendance.

**H Major References**

This list will help identify the scope.

**I Supplementary Materials**

Anything that might help the reviewers evaluate the proposal, such as sample viewgraphs, links to potential course web pages of the instructor or, if already available, draft tutorial slides.

Please, send the filled form to the Tutorial Co-Chairs, Prof. Choong Seon Hong, [cshong@khu.ac.kr](mailto:cshong@khu.ac.kr), and Dr. Prosper Chemouil, [prosper.chemouil@orange-ftgroup.com](mailto:prosper.chemouil@orange-ftgroup.com).
